

VALCO MELTON

## EDGE BANDING

### WOODWORKING ADHESIVE DISPENSING SOLUTIONS

**Reduce Adhesive Usage by up to 70%.** Valco Melton offers rugged and precise applicators for edge-banding application needs with special features to eliminate warped and carved board issues. In addition to this, the industry proven reliable MCP-4P control brings savings by removing unneeded operation adjustment and presenting automatic shut-off. With reduced glue usage up to 70%, scrap, rework, glue pot and roller, as well as controllable, repeatable processes at all machine speeds, Valco Melton Edgebanding Dispensing Equipment Solutions save you both time and money. Easily improve production quality with this optimized solution. Here are a few key features of what we can provide:

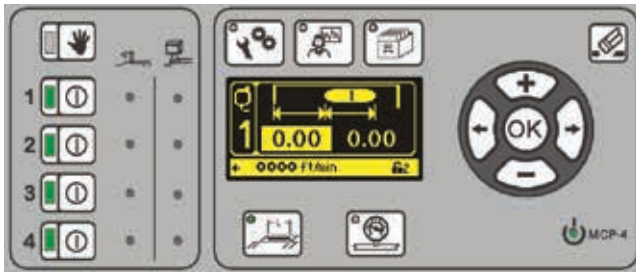

- Conform perfectly to the board with state-of-the-art, micro-adjustable equipment features.
- Provide smooth contact between the applicator and board with spring tension.
- Make your machine work harder, so that you don't have to by with Valco Melton equipment, made for the rugged environment of a woodworking facility.
- Guarantee excellent wear-resistance and added longevity with one of our specially designed applicators.
- Generate instant savings of up to 70% from decreased adhesive usage.

Unique Valco Melton software allows any board length to be glued without operator adjustment.

Valco Melton offers a wide range of units with different tank sizes and melt rates, including PUR application systems. Unique grid melting systems reduce heat-up time.

Valco Melton's MCP-4C Pattern Controls feature an intuitive LCD front panel for easy configuration and programming. Get 4-channel operation with 8 programmable patterns per channel.

Valco Melton's offers a complete selection of hot melt components and support equipment including:

- RTD hot melt hoses
- Manual and automatic dispensing valves
- Nozzle and applicator styles
- Mounting bracket packages
- Solid-state pattern control systems
- In-line filters
- Replacement parts for competitive systems
- High-performance hot melt adhesives

### Applicator Features

Micro adjustment glides up and down to perfectly align adhesive placement, even on warped board

Spring-loaded pivot provides constant application pressure against the board

Implementation of Valco Melton's simple effect modules result in clean pattern shut-off without dripping or oozing

Easy application width adjustment

0 to 60 mm or 0 to 90 mm applicator heads available

**ISO 9001**
