

# LP Series

## Low Profile Applicators

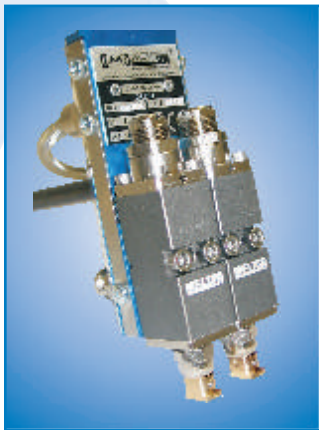

### A Packaging Essential

Valco Melton's **LP Series** is the optimal solution for hot melt adhesive application in box sealing processes. Specifically engineered to work in the most demanding packaging lines, its low profile design allows for installation in constricted or limited spaces. The LP Series can be configured to work with standard or orientable modules and permits the use of a wide range of nozzles to cover all kinds of application requirements at the highest quality.

#### Valco Melton's LP Series offers:

- Low profile design for minimal installation space requirements.
- Multiple configuration options to cover all application needs.
- 100% *Compatible* with market standards.

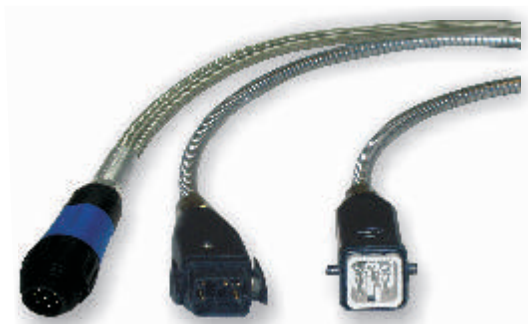

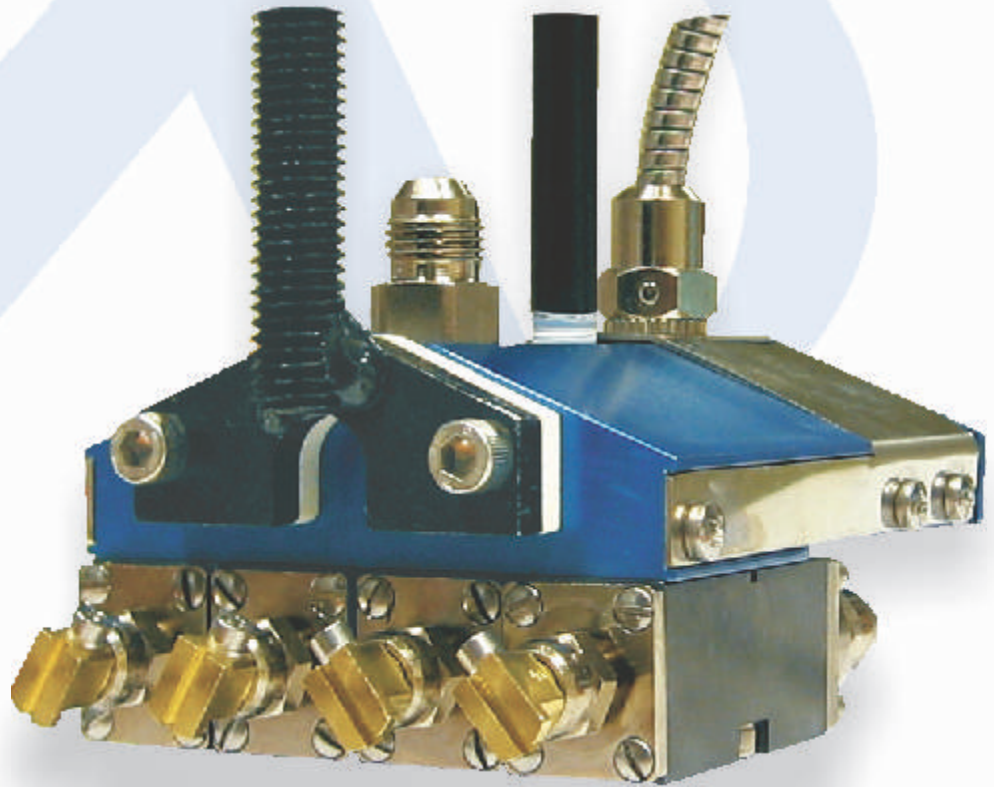

2 or 4 module option to suit all packaging lines.

Reduced profile specially designed for box sealing applications.

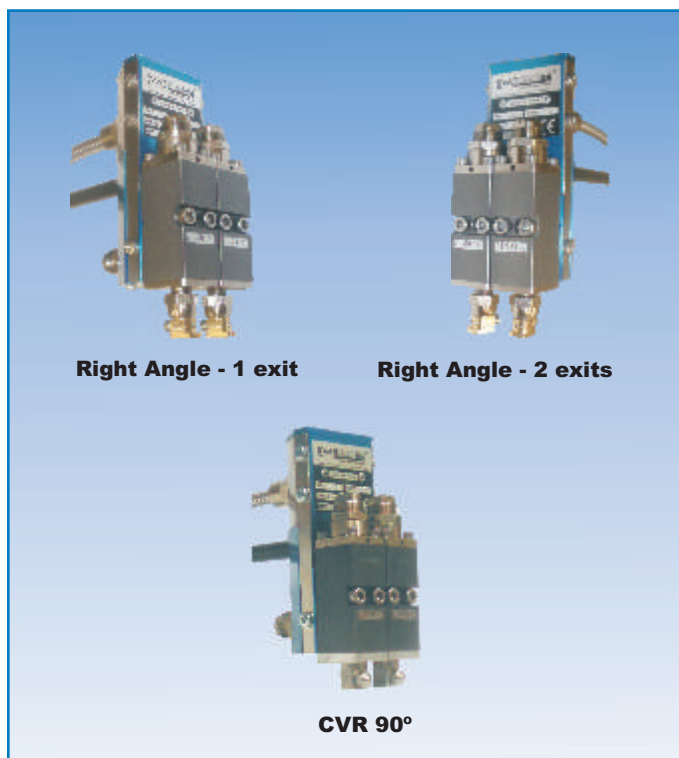

Includes mounting bracket to facilitate installation and to increase operating safety avoiding over-heating.

100% compatible connectors

# Low Profile

## Valco Melton's LP Series:

## THE TOTAL PACKAGE.

Valco Melton's range of application products offer a complete selection of hot melt components and support equipment:

**RTD hot melt hoses**

**Manual and automatic dispensing valves**

**Nozzle and applicator styles**

**Mounting bracket packages**

**Solid-state pattern control systems**

**In-line filters**

**Replacement parts for competitive systems**

**High-performance hot melt adhesives**

**Cost-effective rebuild/exchange programs**

## Technical Characteristics

Specifications	
<b>Max. Operating Temperature</b>	240 ° C / 464 ° F
<b>Max. Operating Hydraulic Pressure</b>	100 bar / 1450 psi
<b>Max. Operating Cycle Rate</b>	2400 cycles per minute
<b>Air pressure</b>	4 - 6 bar / 58 - 87 psi
<b>Electrical Supply</b>	190-250 VAC 50/60 Hz

**ISO 9001**
